LWVMI ACTION ALERT: URGE STATE REPS TO VOTE NO ON HB 4765

The Michigan House Election Integrity Committee voted to report HB 4765 to the entire House for a vote. HB 4765 amends Michigan Election Law to require proof of citizenship when registering to vote. LWVMI opposes this bill and urges you to contact your state Representative to urge a "no" vote on this bill.

As we know from our work to oppose the federal SAVE Act and the House Joint Resolution B, these proposals will establish requirements for voting that only serve to block citizens from their right to vote. For example, citizens would need to purchase an enhanced driver's license or a passport to meet these new registration requirements.

Michigan citizens must already certify their citizenship on the voter registration application.

 Michigan State Representative

Subject: Oppose Proof of Citizenship When Registering to Vote

Dear [[Recipient's Title and Name]]:

I oppose HB 4765 which would amend the Michigan Election Law to require citizenship documentation to register to vote.

HB 4765 specifies documents that would be required to verify citizenship. These required documents would be especially burdensome for people who have changed their name since birth, such as many married women, or people who cannot afford to buy an enhanced driver's license or a passport.

Every citizen has a right to vote and these additional barriers only serve to disenfranchise eligible voters and suppress the vote. Michigan voters are already required to affirm or certify their citizenship status when registering. It is already illegal for non-citizens to vote in elections. Election officials have systems in place to verify an individual voter's eligibility and to ensure that voter rolls are accurate.

There is absolutely no evidence of widespread non-citizen voting in federal or state elections. Please vote "No," on HB 4765 and assure that every eligible Michigan citizen has the right to vote.

Sincerely,
